

Tunga B. V,  
Design Hub Kampala,  
5<sup>th</sup> Street, Industrial Area,  
Kampala, Uganda.

Dear Reinier,

Reference is made to the ongoing contract on development of a project management system.

As part of your scope of work you were required to provide low level design for the system. We wish to bring to your attention that this is a major part of any system development processes and we are yet to receive one from your team.

The designs shall help us maintain and continuously develop the system after handover by Tunga. We have continuously requested for the same but Tunga has failed to meet this request to date.

In light of the above we demand that the following be shared by 20<sup>th</sup> November, 2019: -

- i. Low level design
- ii. Updated User stories
- iii. Updated documentation/User guide
- iv. Test cases

Looking forward to your support on this.

Yours,

Omar Derow  
Chief Finance Officer  
Soliton Uganda.
